ITS Becomes the Exclusive Agent for Hudson Fiber Network
Master Agent Expands Offerings Targeting Financial Services Customers

PARAMUS, NJ – May 17, 2010 — Interactive Telecom Solutions, Inc. (ITS), a leading master telecommunications agent in the US, announced today that it has become the exclusive agent for Hudson Fiber Network (HFN), a high-bandwidth, low-latency network solution provider that focuses on buy-side and sell-side customers as well as pre- and post-trade service providers.

ITS' agent partners can now service financial customers by connecting them to major exchanges throughout North America with HFN's X-Change Connect. As part of HFN's Metro Ethernet offering, X-Change Connect offers financial services companies' ultra low-latency connectivity across the shortest distance fiber routes. Its guaranteed, microsecond Service Level Agreements (SLAs) enable customers to provide a single point of connectivity with unmatched performance for trading firms in the equity markets.

"ITS understands agents want to expand their offerings to include this important vertical. As trade volume increases, trading infrastructure must deliver increasing data volumes with the lowest latency possible. This is key in providing financial customers with a leading edge," said Keith Muller, CEO and founder of ITS. "With this relationship, we are building our portfolio of offerings and enabling our agent partners to expand their customer base."

About Interactive Telecom Solutions, Inc. (ITS)

Based in Paramus, NJ, ITS' has quickly become a leading, global master agent in the US. Established in 2002, ITS' worldwide network of Ethernet, PBX, data integrators, cabling and consulting firms, has positioned it as one of the most comprehensive telecommunications management firms addressing the challenges today's customers, agents and business partners face.
