### **Hudson Fiber Network Opens Two New NJ Metro Fast Paths** *HFN Connects Financial Service Customers to Top Trading Engines*

**PARAMUS, NJ – June 13, 2011** – Hudson Fiber Network (HFN), an exclusive provider of high-bandwidth, low-latency networking solutions serving buy-side, sell-side and financial service providers has opened two new NJ Metro routes connecting both West Passaic Street in Rochelle Park, NJ and 100 Delawanna Avenue in Clifton, NJ to 755 Secaucus Road, Secaucus, NJ.

At 21 km between the Rochelle Park and Secaucus facility and 15 km between the Clifton and Secaucus facility, these are HFN's newest Fast Path exchange routes. As the fastest available routes today, customers that provide end-to-end transaction solutions for the purchase and sale of financial products and services can now connect to the leading trading engines in the NJ Metro area.

"The West Passaic and Delawanna Fast Paths are two vital NJ Metro network connections for financial customers," said Keith Muller, CEO, Hudson Fiber Network. "Driven by customer demand, our Fast Path initiative has been crucial for buy and sell-side customers that want to lower latency, avoid network congestion and support their current and future network needs."

As a premier data transport and Purpose-built network provider in North America, HFN provides customers with high bandwidth, lower latency, network efficiency and lowers customers' overall networking expenditures by 25-40 percent - compared to industry pricing.

#### **About Hudson Fiber Network**

Headquartered in Paramus, NJ, Hudson Fiber Network is an exclusive telecom provider of high-bandwidth, low-latency networking solutions for financial, content, carrier and enterprise customers. Established in 2002, Hudson Fiber Network has quickly become a premier data transport provider in the U.S. offering clients' solutions that increase network efficiency; help them manage a multi-carrier environment and lower overall networking expenditures.

The company operates a fiber network, which delivers key IP and network services in and among the top U.S. metro markets and around the globe. With more than 25 years of combined experience in the telecommunications industry, the company offers scalability and global reach through its suite of services including Internet connectivity (T1 through 100 Gig), Gigabit Ethernet and Wave networks.
