**Cervalis Partners with Hudson Fiber Network Connecting Customers to North America's Top Financial Exchanges**

**PARAMUS, N.J. – March 29, 2010** – Hudson Fiber Network (HFN), an exclusive provider of high-bandwidth, low-latency networking solutions, today announced that it has partnered with Cervalis LLC to deliver network services at its brand new, state-of-the-art site in Passaic County, New Jersey. This partnership enables Cervalis customers to connect to North America's top exchanges in New York, New Jersey, Chicago and Toronto using HFN's X-Change Connect. Cervalis is a premier provider of IT infrastructure solutions including managed hosting, colocation, business continuity and dedicated office area recovery with data centers in New York, New Jersey and Connecticut.

To provide current and future customers with low latency connectivity, HFN's X-Change Connect will connect Cervalis to North America's leading, electronic financial exchanges in Northern New Jersey, New York, Chicago and Toronto.

"Our customers need the ability to easily connect to key financial locations that provide access to exchange data," said Michael Boccardi, CEO, Cervalis. "In addition, they need faster routes to keep up with the competition. After evaluating providers, we felt that Hudson Fiber Network was an excellent fit to deliver both — enabling us to provide our customers a leading edge."

As part of its Metro Ethernet offering, HFN's X-Change Connect offers the lowest levels of latency across the shortest distance fiber routes. Its guaranteed, microsecond Service Level Agreements (SLAs) enable partners to provide a single point of connectivity with unmatched performance for trading firms in the equity markets.

"Hudson Fiber Network continues to see the need for high-bandwidth solutions in the financial services sector," said Keith Muller, CEO, Hudson Fiber Network. "To answer the need, we are continuing to invest in our network as well as develop innovative low latency solutions to provide customers with the fastest routes between North America, Europe and Asia."
